

# On-Demand Professional Development Series for Any Educator!

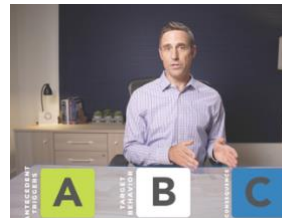

BEHAVIOR  
ADVANTAGE

Designed to **build capacity** and **promote consistency** across all staff, this high-quality series of videos and resources provides a **foundation for any educator** utilizing behavior supports and interventions to support students. A variety of topics are presented to enhance the ability to understand, effectively address, and positively change student behavior. Training modules, designed and presented by Board Certified Behavior Analysts, are perfect for training new staff, refreshing educator perspectives, and school or classroom teams looking for solutions. Access includes all video modules and applied resources and activities for the entire school year.

## HOW TO Utilize this Series:

### WATCH

Video modules are offered in manageable 10-15-minute segments and can be accessed at any time or in any order. Watch the videos on your own or with your school or classroom team to promote shared professional development and strategizing.

Page(s)	Date
1. Choose an intervention to implement in your classroom.	
2. Explain your intervention and describe how you will measure its effectiveness.	
3. Explain how you will monitor and evaluate the effectiveness of your intervention.	
4. Share your intervention with your colleagues and discuss how you will support them in implementing it.	

What are 3 takeaways from this video?

After viewing, what are 1-2 ways you can apply these concepts with students?

Task(s)
Procedure Strategies:
Teaching Strategies:
Reinforcement Strategies:
Generalization Strategies:
Extinction Strategies:
Response Strategies:
Other Strategies:

Write up students are working on their behavior. The teacher will take the time to get away from papers and computers and engage. When the teacher sees the student's response to the target behavior, the teacher should respond with the target behavior.

### ENGAGE

Staff can access guided notes and reflection tools before or after each module to promote the highest level of engagement. Guided activities are provided throughout the series to strengthen the shared understanding of concepts.

### IMPLEMENT

Watching and discussing the training content is the first step, now let's put these new ideas and strategies into action! Staff are encouraged to discuss and develop concrete action plans to begin utilizing specific tools or approaches with their students. Action-planning resources are provided to guide this process.
