

## KIX: A Healthy Energy Drink

KIX is a healthy energy drink with a unique blend of natural S7 ingredients that enhances cellular energy through mitochondria, setting it apart from other energy drinks. It provides clean and natural energy, is low in calories and sugar-free, and is enriched with essential B vitamins. KIX leads to improved energy, faster recovery, enhanced circulation, and better performance. It also features ElevATP, the impressive ingredient that works at the cellular level in the body and provides an additional vitality boost, making it a healthy choice for boosting energy levels.

## How Does it Work?

KIX contains ElevATP which is made of ancient peat and apple polyphenols both of which are clinically shown to increase levels of ATP; the energy currency of the body. It also supports improved strength, power, and performance in athletes. ATP promotes non-stimulatory energy from the body's own mitochondria! KIX features natural, healthy ingredients making it the leading choice for a healthy energy drink.

### **BENEFITS:**

- All-natural ingredients
- Low-calorie, sugar-free formula
- Enhanced energy at the cellular level
- Improved productivity, mood, and focus
- A natural, healthy alternative to other leading energy drinks

- 1 **BETA-ALANINE** | Beta-Alanine is a non-essential amino acid that produces carnosine, which reduces muscle fatigue and lactic acid build-up during high-intensity exercise. It leads to improved athletic performance, muscle endurance, and may have anti-aging effects.
- 2 **CREATINE HCL** | Creatine helps produce energy for muscles during high-intensity exercise and increases strength and muscle gain. It plays a vital role in ATP production, benefiting athletes who require bursts of energy.
- 3 **TAURINE** | Taurine, an essential amino acid, supports immune health and nervous system function. It regulates calcium in cells, aids digestion, and has shown benefits in reducing the risk of type 2 diabetes and improving heart health.
- 4 **L-CITRULLINE MALATE** | L-Citrulline improves circulatory health, muscle function, and reduces fatigue by enhancing nitric oxide production. It aids endurance and may reduce high blood pressure.
- 5 **CAFFEINE** | Caffeine stimulates the central nervous system, enhancing mental alertness and exercise performance. It may reduce the risk of stroke and type 2 diabetes, among other benefits.
- 6 **L-THEANINE** | L-Theanine eases anxiety, stress, and insomnia by affecting brain chemicals like dopamine and serotonin. It boosts the immune system, amplifies chemotherapy effects, and may reduce cancer risk.
- 7 **ELEVATP (Ancient Peat & Apple Extract)** | ElevATP increases ATP levels, promoting non-stimulatory energy production, improved strength, and athletic performance. It plays a role in neurotransmission, blood clotting, and immune response.
- 8 **VITAMIN B3 (as Niacinamide)** | Vitamin B3 lowers cholesterol, enhances brain function, and eases arthritis. It's essential for cellular metabolism and DNA repair, acting as an antioxidant.

- 9 **PANAX GINSENG EXTRACT** | Panax Ginseng improves thinking, reduces fatigue, and may prevent colon cancer, tumor growth, and heart disease. It enhances alertness and decreases stress.
- 10 **VITAMIN B6 (as Pyridoxine HCL)** | Vitamin B6 supports amino acid metabolism, immune health, and cognitive development. It may reduce cardiovascular disease risk and improve memory.
- 11 **GREEN TEA EXTRACT (50% EGCG)** | Green tea extract is rich in antioxidants, promoting heart, liver, and brain health, improving skin, and boosting energy levels.
- 12 **FOLATE (as Folic Acid)** | Folate prevents birth defects, maintains brain health, reduces heart disease risk, and may help with kidney disease and diabetes.
- 13 **VITAMIN B12 (as Cyanocobalamin)** | Vitamin B12 is essential for nerve cell health, DNA and RNA production, and reducing the risk of heart disease, fatigue, breast cancer, and male infertility.
- 14 **VITAMIN B5 (as Pantothenic Acid)** | Vitamin B5 aids in metabolism, blood cell production, and skin health. It may help with acne, ADHD, allergies, and more.
- 15 **YOHIMBE BARK EXTRACT (10 mg)** | Yohimbe improves blood flow, libido, and can aid in fat loss and anxiety reduction. It's also associated with increased alertness and decreased stress.
- 16 **S7 INGREDIENTS** | Green Coffee Bean Extract, Turmeric Extract, Tart Cherry Extract, Blueberry, Broccoli, and Kale, form a powerful blend rich in antioxidants and anti-inflammatory properties, offering a wide range of health benefits from heart and brain health to muscle recovery and cancer prevention.
