<a href="#">Want to improve your public speaking? This startup's AI tool aims to give you a silver tongue</a>	Yoodli's software platform records users as they deliver their presentations, and then points out where they could speak more clearly, cut back on the "ums" and other filler words, and improve their use of eye contact and gestures
<a href="#">Microsoft snaps up goal-planning and execution management startup Ally.io</a>	The cloud-based offering enables businesses to shift from traditional, disjointed planning and execution to a modern, objectives and key results-based framework that drives strong alignment, agility, transparency and empowers the workforce.

## Analysis, Reports, Trends

<a href="#">sdxcntral - Cisco Report: 64% of Workers Say WFH or They Walk</a>	The report included Cisco employee data and surveyed 39,000 CIOs, IT decision makers, and employees from companies in 34 countries. Cisco plans to update the report quarterly.
<a href="#">VentureBeat - Absence of household internet sitting at 23% in U.S.</a>	<a href="#">Not having household internet</a> might sound like an obsolete proposition in this day and age, but that's the case for 27.6 million U.S. households. In percentage terms, that's a whopping 22.6%. If you round off the numbers, about 1 in 4 households do not have internet access.
<a href="#">VentureBeat - Algolia: Only 26% of retailers use AI-optimized search</a>	The State of Search Report reveals the impact of search on a variety of key areas, including conversion rates, user experiences, demand surges, achieving a headless architecture, and more.
<a href="#">Computerworld - What's new in Office 2021?</a>	With Office 2021, real-time co-authoring is finally available in all three desktop clients, as long as the documents you're collaborating on are stored in Microsoft's cloud storage service, OneDrive.
<a href="#">ZDNet - What is digital transformation? Everything you need to know about how technology is reshaping business</a>	Digital transformation involves using digital technologies to remake a process to become more efficient or effective. The idea is to use technology not just to replicate an existing service in a digital form, but to use technology to transform that service into something significantly better.
<a href="#">Network World - 6 data center trends to watch</a>	In this year's report, 20% of outages were deemed severe or serious by the organizations that reported them. Roughly six in 10 major outages in the 2021 survey cost more than \$100,000.
<a href="#">PCWorld - Report: Less than half of business PCs can run Windows 11</a>	According to a survey by Lansweeper of 30 million business PCs across 60,000 companies and organizations, only 44.4 percent of computers were compatible with Windows 11.

Collabmail is a Microsoft Outlook add-in that integrates drag-n-drop functionality for fast filing and navigation of SharePoint. See your content, folders and metadata all from the comfort of your inbox - even make a favorites list for quicker access.
