Configuration Module - GO! View

Sophie Garrity

Agenda

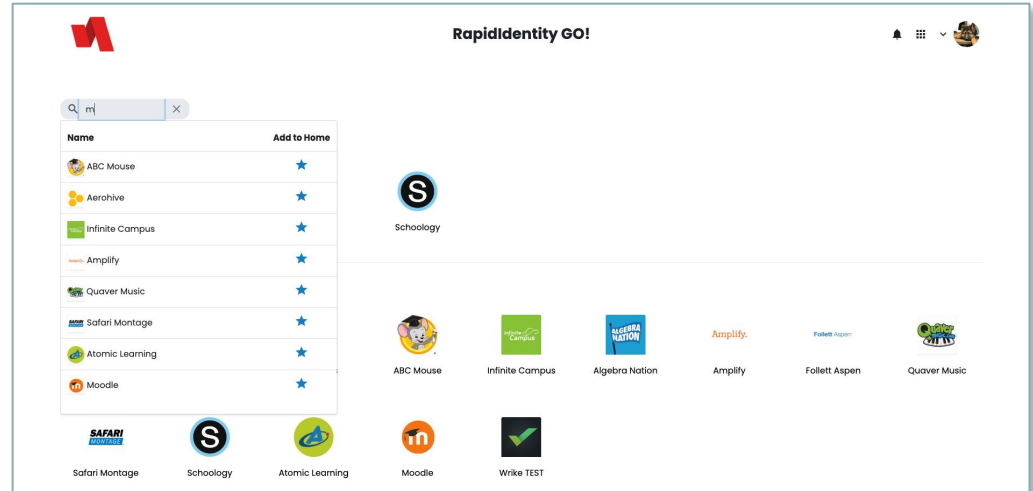

- 01 Personas
- 02 Themes
- 03 Announcements
- 04 Q&A

But first, what the heck is the GO! View?

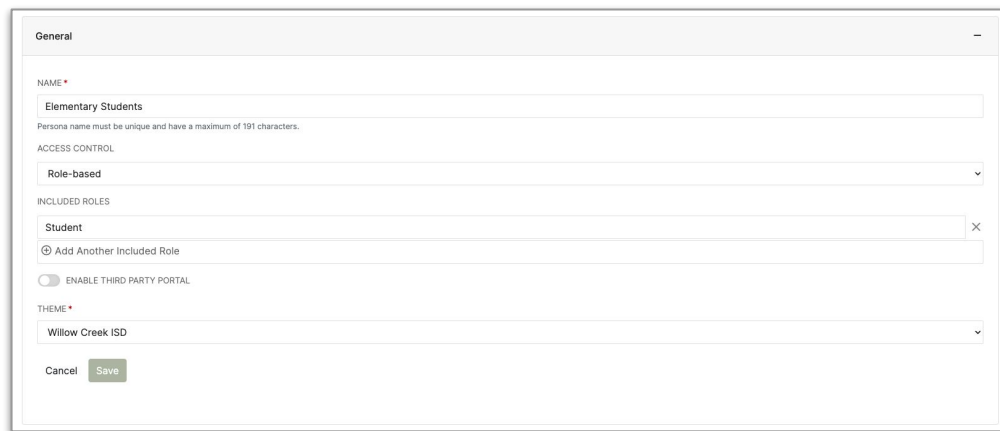

- Created specifically for Teachers and Students to have easier access to their online resources.
- Enables administrators to deliver different experiences to specific groups of users via Personas.
- Can be used in conjunction with the RapidIdentity GO! App on iOS Devices for an improved mobile experience.

01 - Personas

- Personas are groups of users based upon a role or attribute.
 - Ideally, we would want users to fall within 1 persona.
- Personas can be as granular as necessary to best support your District
 - Example 1: Students, Teachers, Staff
 - Example 2: Elementary Students, Secondary Students, Elementary Teachers, Secondary Teachers, Staff

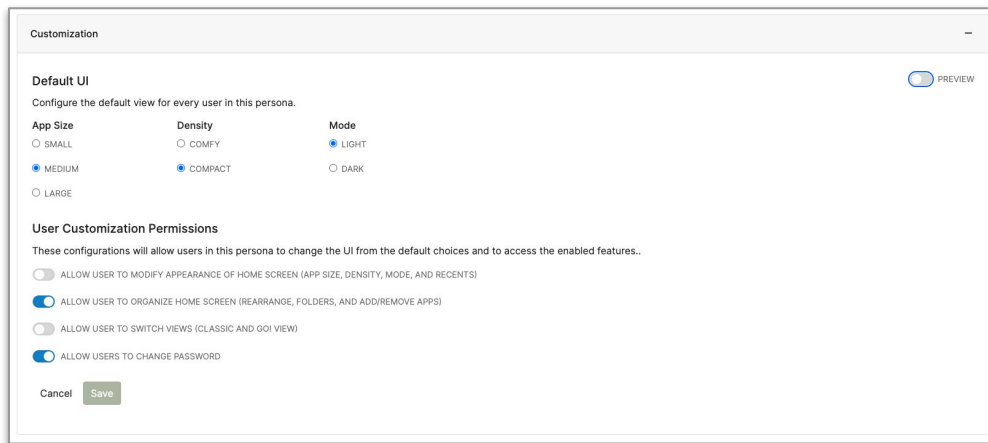

The screenshot shows a 'General' configuration form for a persona. The form has a title bar 'General' with a minus sign. Below the title bar, there is a 'NAME' field with a red asterisk, containing the text 'Elementary Students'. A small note below the name field states: 'Persona name must be unique and have a maximum of 191 characters.' The next section is 'ACCESS CONTROL', which has a dropdown menu currently set to 'Role-based'. Below this is the 'INCLUDED ROLES' section, which has a text input field containing 'Student' and a close button 'x'. There is a link '+ Add Another Included Role' and a toggle switch for 'ENABLE THIRD PARTY PORTAL' which is currently turned off. The 'THEME' section has a dropdown menu set to 'Willow Creek ISD'. At the bottom, there are 'Cancel' and 'Save' buttons.

01 - Personas

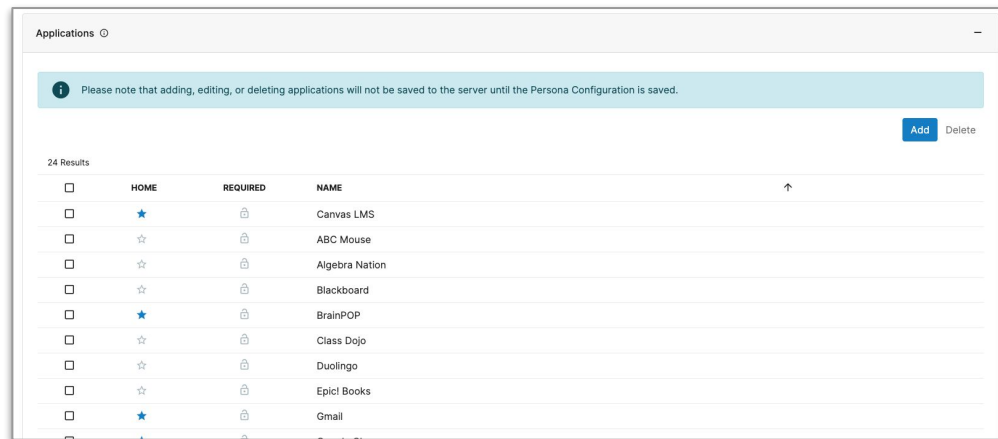

- Use the Customization Options to create purposeful User Experiences
- Configure Default App Size, Density, and Mode using Preview
- Customization Permissions determine amount of control the User has over their UI

The screenshot shows a 'Customization' dialog box with a title bar and a close button. It is divided into two main sections. The first section, 'Default UI', has a subtitle 'Configure the default view for every user in this persona.' and a 'PREVIEW' button. It contains three columns of radio button options: 'App Size' with 'SMALL', 'MEDIUM' (selected), and 'LARGE'; 'Density' with 'COMFY' and 'COMPACT' (selected); and 'Mode' with 'LIGHT' (selected) and 'DARK'. The second section, 'User Customization Permissions', has a subtitle 'These configurations will allow users in this persona to change the UI from the default choices and to access the enabled features..'. It contains four toggle switches, all of which are turned on: 'ALLOW USER TO MODIFY APPEARANCE OF HOME SCREEN (APP SIZE, DENSITY, MODE, AND RECENTS)', 'ALLOW USER TO ORGANIZE HOME SCREEN (REARRANGE, FOLDERS, AND ADD/REMOVE APPS)', 'ALLOW USER TO SWITCH VIEWS (CLASSIC AND GOI VIEW)', and 'ALLOW USERS TO CHANGE PASSWORD'. At the bottom are 'Cancel' and 'Save' buttons.

01 - Personas

- Assigning Applications to curate a Home Screen
- Admins control all applications available to the User based upon their Persona
 - Can be assigned to their Home Screen or placed in an App Library
- Admins can 'lock' specific applications on the Home Screen
- Admins can control the order of the Applications for a Persona

02 - Themes

- Themes control the look and design of the GO! View
 - Can be customized for your District or used to differentiate the Home Screen for specific Personas
- Logo and Favicon are provided in URL format
 - Imgur (<https://imgur.com>)
- Themes can be assigned to multiple Personas

Themes > Willow Creek ISD

NAME *

Willow Creek ISD

Theme name must be unique and have a maximum of 191 characters.

LOGO URL *

https://sgarrity.dev003-rapididentity.com:443/files/willow_creek_small.png
