

PICTOGRAPH QUICK START

Pictograph Authentication provides a secure and user-friendly option to traditional authentication methods. Instead of typing in a username and password, users create a password by selecting images.

Go to the RapidIdentity login page

01

The district will provide the link to the login page. Before you set up your Pictograph for the first time, you need to claim your account. Select "Claim My Account" to start that process.

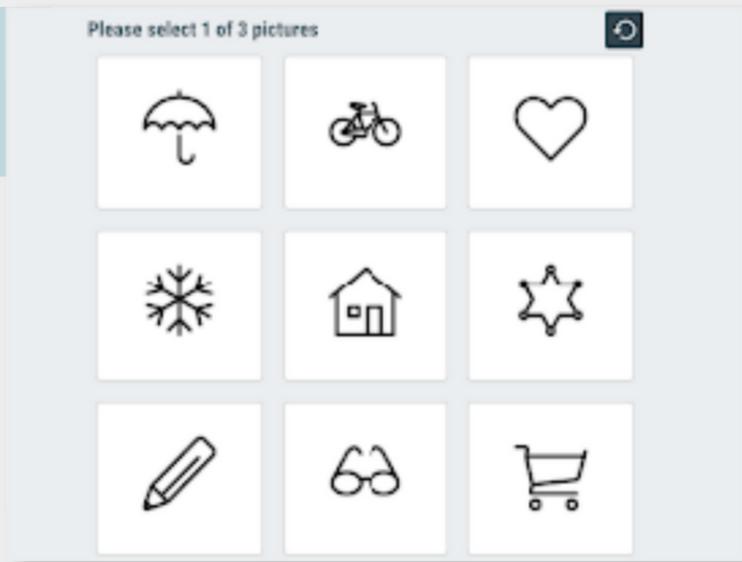

Enter username

02

Enter your username and select "Go" to proceed.

Choose your images

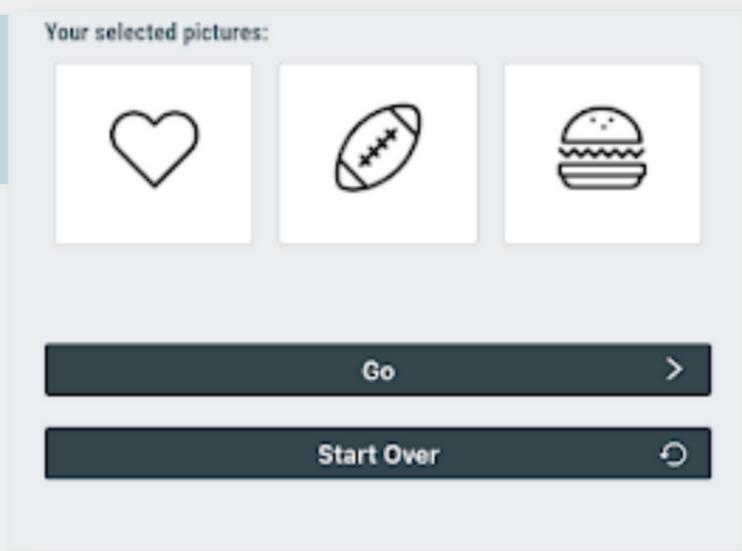

03

Select three images to use as your password for future logins.

Enter your password

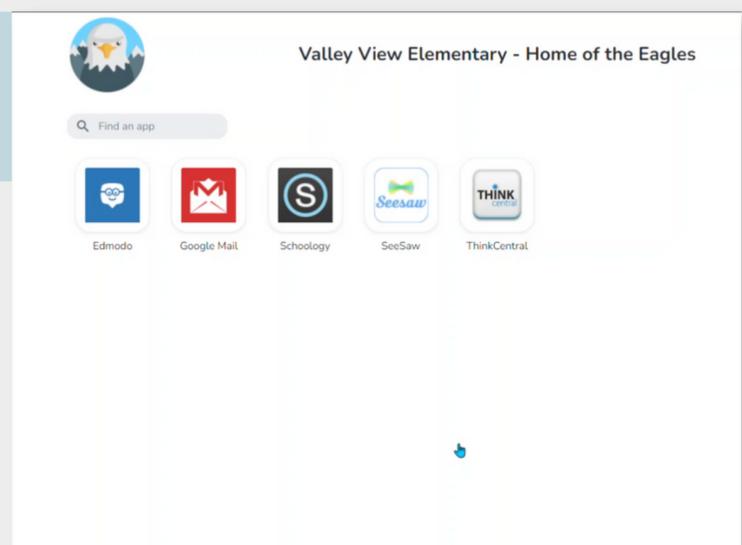

04

Enter your password created during the Claim My Account process and select "Go" to complete the Pictograph setup. Notice that the selected images are shown and should be remembered to log in.

You're done!

05

You now have access to your portal.
