**SPECTRA®** **wasabi** hot cloud storage

Spectra Logic's BlackPearl and Wasabi's Hot Cloud Storage deliver the hottest hybrid cloud storage solution available today

Wasabi Hot Cloud Storage

Wasabi hot cloud storage is the industry's most affordable and highest performing cloud storage service. Wasabi is 80% cheaper and 6x the speed of alternative cloud storage services like Amazon S3. Specifically conceived to make cloud storage a commonplace utility like electricity, Wasabi hot cloud storage is easy to understand, easy to order and incredibly cost-effective to scale. With Wasabi there are no confusing cloud storage tiers to decipher and no complicated fee structures to decode. Engineered for extreme data integrity and security, Wasabi provides eleven 9s object durability and supports configurable data immutability to protect against accidental deletions, ransomware and viruses, and to ensure regulatory compliance. A parallelized architecture lets you rapidly move large datasets in and out of the cloud.

Spectra BlackPearl Converged Storage System

BlackPearl® Converged Storage System solutions allow data to move seamlessly into disk, tape and cloud storage in a way not previously possible. To meet the demands of exponential data growth and long-term retention, BlackPearl enables users to easily store large datasets forever at virtually no cost. BlackPearl combines multiple standard interfaces and storage targets into a simple and affordable solution designed for diverse workflows. Very user friendly, BlackPearl is the ideal solution to help you organize and manage data. BlackPearl enables users to deploy a tiered storage strategy that is cost effective, easy to manage and scalable to exabytes of data. With BlackPearl's simple RESTful Spectra S3 interface, organizations will confidently store all of their data forever at costs as low as pennies per gigabyte.

KEY FEATURES

- Instantly scalable hybrid storage for any workflow
- Affordable end-to-end tiered storage solution
- Inexpensive and reliable secondary storage for backup and recovery
- Durable storage for archival and compliance needs
- Seamless integration and operation

Spectra BlackPearl and Wasabi Solution Overview

Instantly scalable hybrid storage aligns costs with data value. Data growth is spiraling out of control, creating operational and financial challenges for many IT organizations. Conventional onsite storage platforms and first-generation cloud storage services are too expensive and complicated to scale and manage. Wasabi has partnered with Spectra Logic to help businesses reduce storage cost and complexity. Wasabi hot cloud storage is incredibly affordable and delivers fast cloud object storage for any purpose. And Spectra BlackPearl combines diverse storage targets and technologies into a converged storage system for greater resiliency and efficiency. The tightly integrated solution lets you blend onsite and cloud-based resources to form an instantly scalable hybrid storage pool for ultimate flexibility, performance and economics.
