April Monthly Masterclass

Gain efficiency with Quoting in Steelhead!

Join the live webinar on Wednesday, April 30th at 12pm CST to see how you can create repeatable, customizable quotes with ease in Steelhead.

Here are some key areas we will focus on during this live masterclass:

- Get a walkthrough of the updated interface in the Quoting dashboard
- Understand Part Number Pricing vs. Quote Lines
- See how to build, customize, and finalize quotes efficiently with the new drag and drop feature
- Use the Auto Create, Bulk Price, and Merge Lines buttons to speed up the quote creation process

This is a great opportunity to sharpen your quoting skills and get answers to your questions—all in under an hour! Click below to register now.

Steelhead University *"Timesheets"* Course

Maximize your productivity in Steelhead!

Master time tracking in Steelhead with the new Timesheets course from Steelhead University. This course provides a comprehensive overview of the Timesheets module with step-by-step video tutorials and practical examples, as well as knowledge checks and a final quiz to reinforce learning.

The Timesheets course provides:

- Straightforward instructions on creating allocation plans and handling approvals and missed segments
- A clear overview of Steelhead's Timesheet functions, including clock-in/out, overtime, and time-off management
- Walks you through domain/user settings, permissions, and how to configure pay schedules

Product Update Highlights

CSV Downloads

Added ability to export and download the CSV file from paid Payrolls, from the All Receivers page, and several key Accounting reports.

Add Instructions When Composing Processes

Ability to add or edit part number process node instructions in the Create/Edit Part Number process composer dialog.

Super Systems Sensor Integration

Steelhead recently released an update that provides integration with Super System sensors, using a downloadable connector app for porting live sensor data to Steelhead sensors. This eliminates manual entry of the sensor data and allows for live feeds to provide that data.

Reach out to sales@gosteelhead.com if you'd like more information on purchasing this feature!
