Weekly Newsletter

October 7th, 2022

Create and Send Invoices in Seconds!

When your parts, services, work orders, shipping, and customer information are all stored in Steelhead, generating an invoice can be lightning fast.

A screenshot of the Steelhead Invoicing Dashboard. The dashboard shows a list of 'Active Parts' with a 'Ready to Invoice' button next to a 'Picnic Table' item. A red circle highlights the 'CREATE INVOICE' button in the top right of the dashboard. A red arrow points from this button to the 'Creating Invoice' form below. The form shows the 'Picnic Table' item being added to an invoice for 'ABC Manufacturing' with a total of \$1,500.00. The form includes fields for 'Terms' (NET 30), 'Bill To' (455), and 'Notes' (Thank you for your business!).

Part #	Part Group	Active	Invoiced	Complete	Price	Status
Picnic Table		3	0	0	\$500.00	Ready to Invoice

Once you have all of your settings dialed in, you can generate an invoice in three clicks from your phone or tablet using the Invoicing Dashboard.

The invoicing dashboard was built with the intention of making invoicing frictionless. Custom document templates that pull in information for you means that your invoice can look exactly the way you want it, every time, with minimal effort. Adding your branding and custom information is easy to do, and once it's set up your invoices will look great every time!

Sorting and prioritizing orders to be invoiced is intuitive with the Status check box filters. Just check "Ready to Invoice" and see what orders are waiting to be invoiced.

The screenshot displays the Steelhead Technologies Invoicing Dashboard. At the top, there's a navigation bar with the company logo, search fields, and user information (Marc Madigan). Below the navigation bar, the dashboard is divided into sections. On the left, there's an 'Active Parts' section with a search bar and a 'CREATE INVOICE' button. A status filter dropdown is open, showing options: Fully Invoiced, Ready to Invoice (checked), Partially Invoiced, Not Invoiced, and Completed. Below the filter, there's a table with columns for Part #, Complete, Price, and Status. One row is visible for 'Picnic Table' with a price of \$500.00 and a 'Ready to Invoice' button. On the right, there's an 'Invoices (last 30 days)' section with a 'VIEW ALL INVOICES' button. Below this, there's a list of invoices with details like invoice number, date, time, and total amount.

Filter your work orders by their invoicing status - Fully Invoiced, Ready to Invoice, Partially Invoiced, Not Invoiced, or Completed.

Once an invoice is completed, all that's required to send it to a customer is two more clicks - one to open the email dialogue, and one to send. If the invoice is for a repeat customer, the editable recipient address and message are saved from the last invoice.

Invoices (last 30 days) [VIEW ALL INVOICES](#)

[REDACTED] | [REDACTED]
10/6/22, 9:18 AM | Total: \$8,176.78 | Terms: Net 30

Invoice Sent on 10/6/2022, 9:18:57 AM

You can also see records of when invoices were sent to customers. A green check on the email icon indicates that the invoice was emailed; hover over it to see when it was sent. When the bank icon appears, it means that the invoice information has been synced to your accounting software.

Learn more about how to get the most out of the Invoicing Dashboard with our newest user documents.
