Customize maintenance plans for every aspect of your shop. Make them your own - as simple, or as thorough, as you need.

Maintenance plans and instructions can be written to meet any requirements. Include pictures, files, and instructions to make sure that PMs are conducted correctly every time. Completed maintenance can also be viewed for each individual piece of equipment at any time. Eliminate searching for paper records during safety audits!

Simple instructions provide the same info for operators every time. Dynamic instructions (above) adjust based on info entered earlier. No matter how complex, *PMs can now be painless*.

Maintenance plans can be set up to follow a recurring schedule and assigned to specific users. Reach out to Steelhead Customer Success at support@gosteelhead.com or call/text us at 906-256-3259 to learn more about how Steelhead's Maintenance feature can improve your plant's efficiency!

Articles

This week's articles highlight the issue with traditional ways of managing shipping and receiving at metal finishing plants and how to update them with digitization, automation, and optimization.

Shop Spotlight

Veterans Metal

We are thrilled to celebrate the grand opening of Veterans Metal's brand-new, stateof-the-art facility in Largo, FL! This remarkable achievement marks the transformation of a 27-year-old operating plant into a modernized facility equipped to serve government and commercial projects with unparalleled efficiency and quality.

The event was graced by the presence of esteemed guests, including the team from Steelhead Technologies, who presented an official certification to Veterans Metal. This recognition highlights Veterans Metal's unwavering commitment to excellence, exemplified by the implementation of a cutting-edge digital plant operating system.

With this new facility and advanced technologies, Veterans Metal is poised to deliver exceptional products and services, setting a new industry standard.

Congratulations to the entire team at Veterans Metal on this momentous accomplishment!

FABTECH 2023

September 11 - 14 in Chicago, IL
