

Release Notes – 8.8.1

March 3, 2017

ExactBid's Real Estate Information Management System (RIMS) Version 8.8.1 is a release for all RIMS 8 users.

These Release Notes provide a summary of bug fixes and performance improvements for the following noted areas:

NEW FEATURES & ENHANCEMENTS

Third-party Integration

VERAcheck

- Integration with VERAcheck to provide environmental reports including Secured Creditor Risk Report, Secured Creditor Risk Report–SBA, Secured Creditor Risk Report Plus, Secured Creditor Risk Report Screen and Environmental Records Research Report

NOTE: Contact Support Team about enabling this feature

Report

Vendor Handling Fee Report

- This report has a new option to include External Vendor Job Manager Fees

NOTE: Contact Support Team about enabling this feature

QUALITY IMPROVEMENTS

Change Log

User Change Log

- Affected User, IP and Browser columns display information
- Rows with Old Value and New Value fields displaying value IDs now show text values

Contact Search

Contact Search

- Edit and delete user options are no longer visible to users without user management permission

Advanced Contact Search

- User Type drop-down options are temporarily disabled for non-AO users without user management permission

Email & Group Messaging

Copying and Pasting Text & Images

- Format will be retained
- Internet Explorer 8 and 9 users cannot automatically copy and paste images; an “Insert Image” button is provided to upload images
- Images larger than 32kb will not display in messages opened from the log if viewed in Internet Explorer 8

RFP Manager

View Bids

- View Bids successfully opens when a relationship does not currently exist between a vendor and a RIMS customer

RIMSCentral

Active Relationships

- Active relationships are maintained between a RIMSCentral vendor and a RIMS customer

Login

- Resolved issue where vendors were unable to login after creating a new account

Scorecard

Environmental Scorecard

- Preparer and reviewer fields store successfully

User Management

Job Restriction Settings

- Settings are retained when user password is changed
