# Collateral360®: What's New in June 2025

Mobile Capabilities

We're excited to introduce a significant enhancement to the mobile PDF download experience in Collateral360. **This update ensures seamless, native viewing of downloaded PDFs across all major mobile platforms, including Apple (iOS), Android, and Windows devices.** Whether users are accessing reports on the go or reviewing critical documents in the field, they can now open and view PDFs directly within their device's built-in viewer—no additional apps or manual workarounds required. This improvement boosts user efficiency, streamlines workflows, and reinforces Collateral360's commitment to delivering a superior mobile experience for modern lending professionals.

Create Your LightBox Login

To access the full capabilities of Collateral360 and other LightBox solutions, make sure you've set up your LightBox login. Your login gives you secure, streamlined access to all your tools, data, and reports - anytime, anywhere.

Why it matters:

| Secure access to your account | Seamless navigation across LightBox platforms | Personalized user experience | Access to new features and updates |

Other Updates

We've continued to enhance the platform with multiple updates focused on security, performance, and infrastructure stability.

Watch the On-Demand Recording of our Most Recent Lunch & Learn!

In this session, LightBox experts delve into optimizing your Collateral360® dashboard to enhance workflow efficiency. Discover tips and best practices for navigating the dashboard, managing tasks, and leveraging features to streamline your due diligence and compliance processes.
