

## REPORT WRITER 45.66.7 RELEASE NOTES

The following bug fixes have been applied as a part of the Narrative1 version 45.66.7 release.

### ENHANCEMENTS

- Excel**      **Capitalization & Multipliers**  
Vacancy Rate in Capitalization & Multipliers now pulls from the Rent Roll. Users should overwrite this value as necessary.

### BUG FIXES

- Excel**      **Rent Roll**  
The Database names for Commercial Vacancy and MF Vacancy have been moved to the Occupancy table in the Rent Roll.
- Excel**      **Land & Sales Grid**  
We've corrected an issue where the "Conditions of Sale" dropdown was referencing the Finance list.
- Excel**      **Cap & Multipliers**  
Moved N1DBVacancy\_Rate and N1DBCommercial\_Vacancy to Rent Roll: Occupancy table
- Excel**      **Cap & Multipliers**  
"On Site Management" was not counted in total expenses in the Direct Cap table nor the expense reimbursements table. This has been corrected.
- Excel**      **Cap & Multipliers**  
NOI was not appropriately referenced in the Data table in the N1CashFlowProfile chart. This has been corrected.
- Excel**      **Expense Grid**  
We've corrected an issue where Toggle Display was failing on the Expense Grid if Expense category labels were modified.

**Word**

**ToC**

We've corrected an issue where tables were appearing in the Table of Contents in the word templates. This happens when the style applied to a table/image is a Header rather than Normal.

**Engine**

**Maps**

We've added IE - Edge as a viable default browser for the Google Maps API
