

NARRATIVE1 WEB 1.19.10 RELEASE NOTES

The following feature enhancements and bug fixes have been applied as a part of the Narrative1 Web version 1.19.10 release.

BUG FIXES

N1-Web

Improvements

The new "Hotel Flag" field was not added as an available field in excel. This has been corrected.

N1-Web

Improvements

GBA was being rounded by the Metric equivalent calculation when Rentable Area was entered at the same time. This has been corrected.

N1-Web

Comm Lease

"Tenant CAM" did not have currency formatting in the lease detail grid. This has been corrected.

N1-Web

MF Lease

Annual Rent Per SF was not being correctly calculated in the detail grid nor were the Rent/SF and Rent/SF/Mo. ranges. This has been corrected.

N1-Web

Print Comps

Commercial Lease and Multifamily Lease templates were printing all lease records instead of the active records. This has been corrected.

N1-Web

Print Comps

The Commercial Lease Template now accurately reflects the "Effective Rent" fields.

N1-Web

Job Search

Where an appraiser had more than 1 license and was assigned to a job as the first Appraiser, they were displayed in the UI as the second appraiser assigned. This has been corrected.

N1-Excel

Subject Import

There was an issue importing properties with Multifamily and Commercial lease records. This has been corrected.
