

NARRATIVE1 WEB 1.18.0 RELEASE NOTES

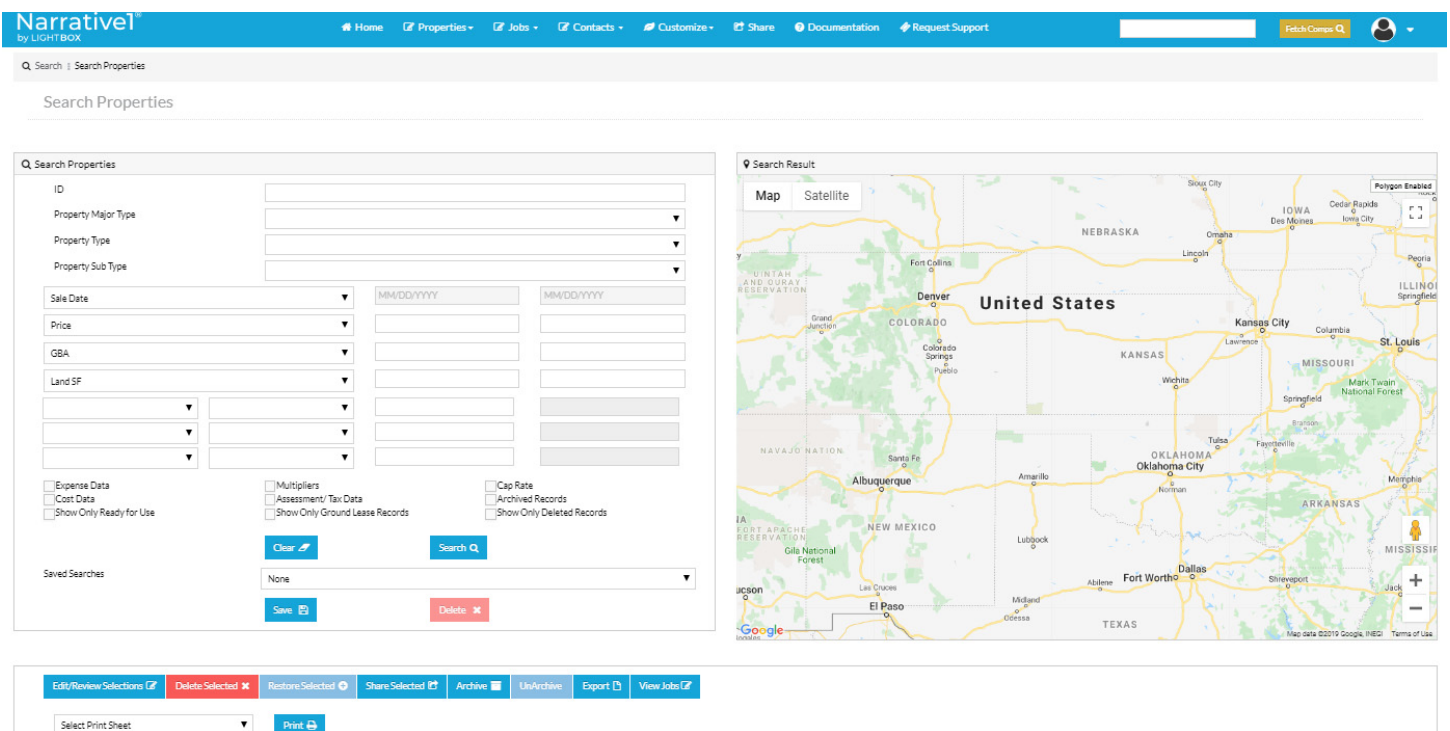

The following feature enhancements and bug fixes have been applied as a part of the Narrative1 web version 1.18.0 release on 12/06/19

NEW FEATURES AND ENHANCEMENTS

N1-Web

N1 has a new look! We've changed our colors to reflect our Parent Company, LightBox. Learn more about the LightBox Vision by clicking on the link below:

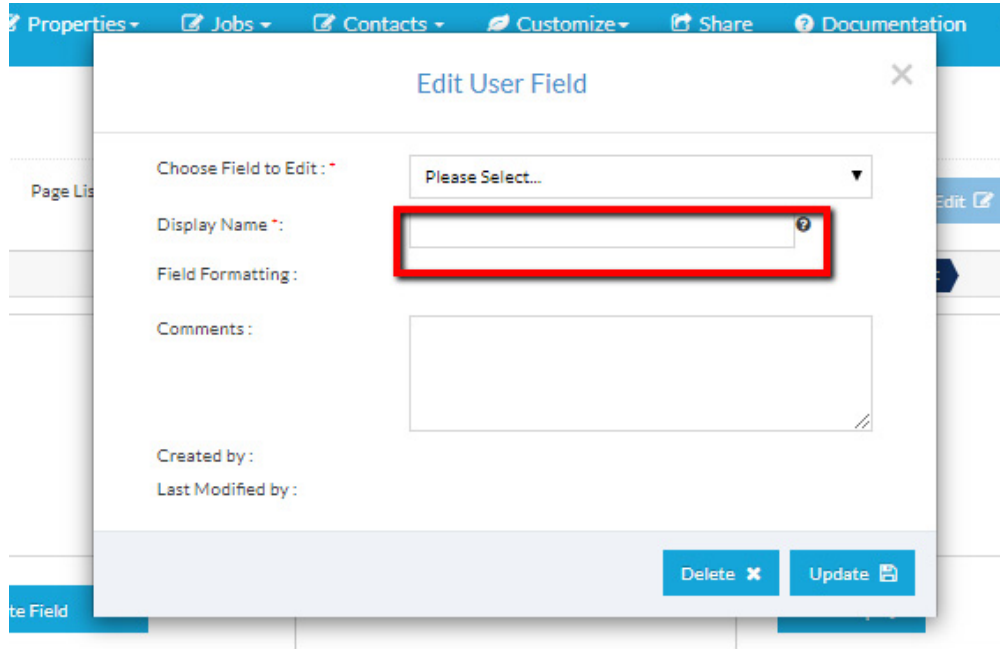

<https://www.lightboxre.com/>

N1-Web

Customize Pages

Users can now edit names of User defined fields within the customize pages interface.

N1-Web

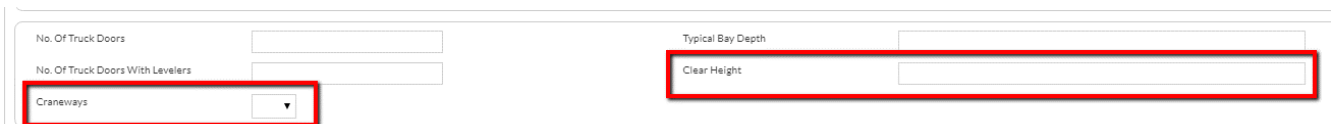

Customize Pages

UDF fields will no longer be "Shared" via the Comp Sharing feature in N1.

N1-Web

Improvements

Craneways and Clear Height have been added to the Improvements page as standard fields.

N1-Web

Site

Traffic Count and Demographic fields have been added to the Site page as standard fields.

Demographics Survey Date	<input type="text"/>	
Median Home Value	<input type="text"/>	
Median Household Income	<input type="text"/>

Property Rights	▼	Book/Page or Reference Doc	<input type="text"/>	Sale Verification Date	<input type="text"/>

Upload Excel

Upload Excel

After a user has uploaded a collection of new parcel records, an alert will display how many records were added to the database and how many were determined to be duplicates.

After user clicks "OK" on the alert, a single excel document with the successfully uploaded parcels AND the records found to be duplicates will be provided.

BUG FIXES AND USABILITY IMPROVEMENTS

N1-Web
