	A service can be checked/unchecked as a Short Form
Pay Invoice	PayInvoice GL account defaults to selected GL on SRF and GL at the job level by what is selected and stored on Pay invoice
RIMS Central	My RIMS Customers / Complete Synchronization link functions

Known Issue

When using the **Engagement Letter Utility** and selecting either **Create** or **View** in the **Content** column a spinner displays indicating data loading; unfortunately your engagement letter data **does not** load.

Therefore, cancel the award and then re-award it to the vendor rather than using the Engagement Letter Utility for letter creation.

ExactBid intends to fix this issue in the next release. We apologize for the inconvenience.

Additional Information
