REPORT WRITER - WEB 1.33.2 RELEASE NOTES

The following enhancements and bug fixes have been included in the 1.33.2 release.

ENHANCEMENTS

Report Writer   Data

LightBox is thrilled to announce our newest feature, Merge Duplicate Properties. Run a report of duplicate properties within your database, choose a primary property and view duplicates side by side. Choose which data to "merge" into the primary property to create a curated property record and easily archive the duplicate properties all in one step.

*Please note, only Data Admins can access this feature. Contact support@narrative1.com to request permission changes.

Report Writer   **Improvements**

We've updated the Product Segments and added new Flagship brands to the Hotel Flag lists.

Report Writer   **Custom Fields**

We've added support for decimal precision up to six characters.

BUG FIXES

Report Writer

Contacts

We've corrected an issue where contacts were not always displaying within Company View.

Report Writer

Job Manager

We've corrected an issue where searches for property types that had special characters did not filter results.

Report Writer

Valuation

We've corrected an issue where Due Date from the Jobs application would be set to a day in the future when imported by an East Coast user.

Report Writer

Valuation

We've corrected the modal for importing properties from Research when there is already an existing property.

Report Writer

Valuation

We've corrected an issue where the Research import was not deleting NULL transaction instances.
