

The following enhancements and/or bug fixes have been included in the 1.36.0 release:

ENHANCEMENTS

Report Writer Data

Now all users can take advantage of our new Data Import feature in the Data module. We took everything you loved about Upload Excel and made it better and faster in a web interface. Use Data Maps to save translations between CoStar, MLS and more to easily upload comps into your database. Data Admins can utilize Duplicate Resolution to merge duplicate properties for a clean and curated database.

Photo URL	String			
Private Remarks	String			
Property Type	String	Property Major Type	Parcel	String
Public Remarks	String	Comments	Parcel	String
Ratified Contract Dt	DateTime			

Report Writer **Mobile**

If your organization utilizes the Job Manager, try our new 'My Jobs' dashboard from your mobile phone. The mobile Jobs dashboard provides high-level job and subject details as well as comps associated to the job, so you can navigate to your site inspection with ease.

This is the first installment of our new mobile site inspection workflow and we'd love to hear your feedback!

BUG FIXES

Report Writer **Improvements**

We've corrected an issue where Construction Class would not persist to Excel.

WHAT'S NEXT?

LightBox is working on some great new features to increase your efficiency.

- Mobile friendly web pages to support site inspections
- Support for applying standard and custom fields in a custom section to all standard pages
- Support for Searching Checkbox (True/False) fields
- Support for column chooser for unit details in the MF Lease search
- Valuation Data page
