

The following enhancements and/or bug fixes have been included in the *January 2025* release:

## ENHANCEMENTS

### Report Writer New Look!

We've updated the Report Writer interface to reflect our parent branding as well as optimizing real estate across all pages.

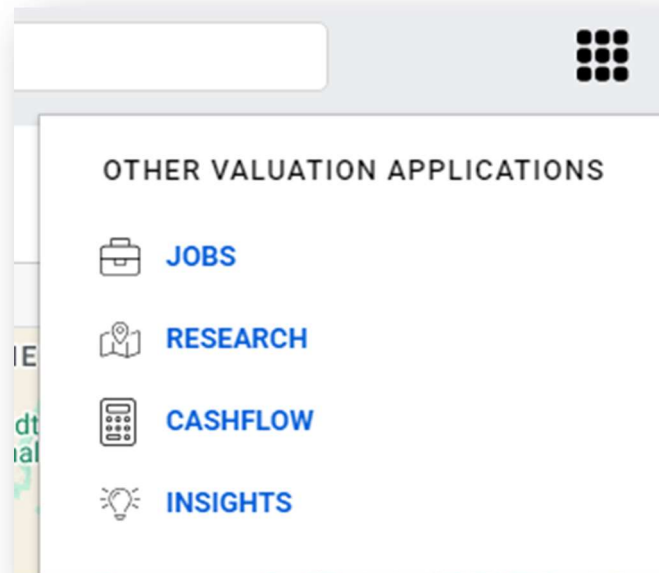

## Report Writer Application menu

---

We've updated the links to other Valuation applications to be accessed from the Bento Box menu icon exactly like the other Valuation applications.

## Comm Lease Save Changes

---

We've updated the comm lease page "Save" function to also include the changes made within the comm lease details section.

## BUG FIXES

- We've corrected an issue where the Country field would sometimes be nulled, even though country code would persist.
- We've corrected an issue where dropdowns within the comm lease detail rows would revert to unknown/NULL. This requires the grid to be reset first, one time only.
- We've corrected an issue where the field tenant parking within the comm lease detail rows had incorrect formatting.

## WHAT'S NEXT?

LightBox is working on some great new features to increase your efficiency.

- Support for Image uploading, error handling, duplicate report in Data Import
- Support for Bulk edits to Jobs
- Print Comps – re-imagined. A brand-new way to create and manage Print Comp templates
