### Changes in SmartFabric

Our product documentation page has move to <https://lightbox.document360.io/data-and-api/en> We continue to add additional content to help users including information to help with your SmartFabric usage.

- Start with an overview of SmartFabric and the data schemas here - <https://lightbox.document360.io/docs/smartfabric-1>.
- Review our published methodologies here - <https://lightbox.document360.io/docs/methodology-statements-1>
- Look at FAQ here - <https://lightbox.document360.io/docs/data-comprehension>
- If you are also using LightBox APIs you can find information on the endpoints in the same documentation portal - <https://lightbox.document360.io/docs/lightbox-api-documentation>

BSL Locations now account for the RESBUS indicator and will code additional locations as BSL using this data.
