# VALUATION – APRIL 2021 RELEASE NOTES

The following enhancements have been included in the release.
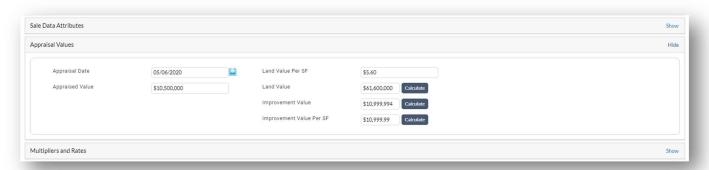

NEW FEATURES AND ENHANCEMENTS

Report Writer   Improvements to Jobs Integration and Job editor

The Report Writer team has added type ahead functionality for adding the Appraiser, Company and Contact information in the Job integration screen. Additional dropdowns have been added to the Job editor in Report Writer to assign up to 4 appraisers and 2 additional Contacts.

Report Writer   Transactions

We've added some data points to the Transactions page, as well as mapped all available fields collected in the Research Project to import into Report Writer.

BUG FIXES

Insights

We've corrected an issue where the Team Member filter was not populating after the query was run.

Insights

We've corrected an issue where the Performance Monitor was not loading data after switching between filters.

WHAT'S NEXT?

The LightBox team is working on some great new features.

- Jobs – Set up rules for access to all RFPs and Jobs with your team.
- Research –Subject Improvements/Building data
- Report Writer – Import Contacts to Excel template
