Vaccines For Children (VFC) Overview

The VFC initiative was originally founded in 1994 following a measles epidemic in the US. Research found that more than half the children who had measles were not vaccinated. It is a part of the Social Security Act and is an entitlement program for eligible children, 18 and younger.

\$4.5B in funding
annually

Vaccines managed
and distributed by
the CDC

Audited by State
VFC Programs

~25,000 sites
nationally
distributing VFC
Vaccines

Number One cause of waste and loss in the program is associated with incorrect storage and handling techniques – Driving both the CDC and State VFC programs to implement Storage and Handling requirements centered on the use of a qualified Digital Data Logger (DDL).

Traceable VFC Program

Purpose: Demystify and support VFC program administrators understand and comply with DDL and Storage requirements for VFC

Key Products:

- Digital Data Loggers : TraceableLIVE and **Vaccine-Trac (NEW!)**
- Transport Solutions : TraceableGO and Excursion-Trac
- Storage Solutions : Freezer Racks, Coolers, etc.

Key Marketing:

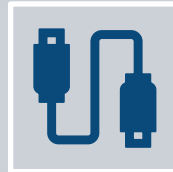

- VFC Line card (Customizable) and Brochure
- Traceable Webinar
- Email, Social, and Web Banners/Ads/Materials
- Battlecard

New Product : Vaccine-Trac Bundle

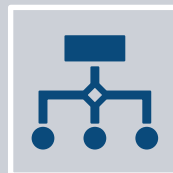

Based on Excursion-Trac platform

Same core data logging features and functions of the trusted platform

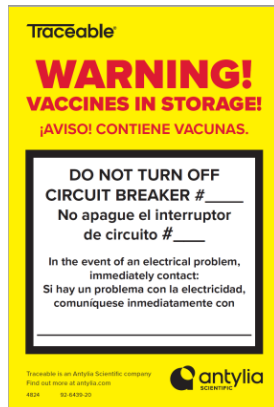

Added accessories for simple implementation:

Fridge/Freezer bottle stand
Dedicated 2GB USB Drive
Safety Signage:
“Do not unplug Fridge or Freezer”
“Do not turn off breaker X”

Dedicated “Complying with VFC” instruction manual and trainings for end users

Vaccine-Trac Bundle : What comes in the box?

Vaccine-Trac base unit
with 1 Bottle Probe

2GB USB Drive

Calibration Cert

Calibration complies with ISO/IEC 17025, ANSI/NCSL Z540-1, and 9001
Cert. No.: 8435-1283817

Traceable® Certificate of Calibration for Excursion-Trac Data Logging

Manufactured for and Certified by: Traceable Products 12861 Conover Rd 2220, Waco, TX 77799

Instrument Identification: Model: 6450, 6460-07 S/N: 210042941 Manufacturer: Control Company

Manufacturer/Equipment	Description	Serial Number	Due Date	Next Traceable Reference
Temperature Collector Unit	AT240

Bottle Stand

Vaccine-Trac : Specifications

	Vaccine-Trac
Data Storage Capacity	525,600 readings
Logging Intervals	Adjustable : 1/Min to 1/Day
Accuracy	±0.25°C
Sensing Range	-50°C to 70°C
Bottle Probe Buffer	nontoxic glycol
Report Formats	CSV & Secure PDF*
Packaging Dimensions	3 ¾" x 3 ¾" x 10"
Packaging Weight	450g / 1.0 lbs
Smart-Alarm Feature	10 Time-stamped Alarms Continuous Alerting
Traceable Calibration	2-years

*Secure PDF report available from TraceableLIVE.com

Vaccine-Trac with

- Using TraceableLIVE, users can activate a Free account and upload data files from Vaccine-Trac devices
- TraceableLIVE will transform and store data the files in their account
- Downloadable in Secure PDF or CSV format – VFC Custom Reporting
