

Fee Object Fields

| FIELD LABEL | API NAME | DATA TYPE | DESCRIPTION |
|----------------------|---------------------------------|--------------------|--|
| Created By | CreatedById | Lookup(User) | The user who created the record. |
| Default Fee | bt_stripe__Default_Fee__c | Checkbox | If checked, this Fee will be the default Fee. Note: If the default fee already exists, it will be unchecked. |
| Fee Name | Name | Text(80) | The Fee Name is publicly displayed when applied during checkout. |
| Fee Percentage | bt_stripe__Fee_Percentage__c | Percent(16, 2) | The percentage value of the fee. |
| Last Modified By | LastModifiedById | Lookup(User) | The user who last modified the record. |
| Owner | OwnerId | Lookup(User,Group) | The user to which the record is assigned. |
| Tax Display Settings | bt_stripe__TaxDisplaySetting__c | Picklist | If "Tax-Inclusive Pricing" is selected, the advertised price will include tax. If "Calculated at Checkout" is selected, the tax will not be shown until the final payment screen. Note: Taxes are always displayed separately on the final payment screen. |
| Type | bt_stripe__Type__c | Picklist | If "Tax" is selected, the tax will be applied to the total after calculating any discounts. If "Payment Processing Fee" is selected, the processing fee will be applied after the tax is added. |
