For new NordLayer members

Hello ==\<name\>==,

We're starting a limited rollout of a new business browser that's designed to keep your data secure and put everything you need to work in one place.

You've been selected to take part in the testing phase.

Here's how to get started:

1. Wait for an email inviting you to set up NordLayer account and click *"Accept invite"*
2. Confirm that your license has been activated
3. Once your account is ready, download the NordLayer Browser [here](#)
4. Open the app
5. Enter the org ID: ==[Insert your org ID]==
6. Log in using ==[insert company-approved method (SSO, email, etc.)]==
7. Start browsing

If you need help getting started, you'll find detailed instructions in [NordLayer Help Center.](#)

This testing phase will help us decide if the browser is a good fit for ==\<company name\>==, so your feedback is much appreciated.

Thanks!

==\<IT ADMIN\>==
